

One Stop, Health Box

What you need to know?

What is the purpose of the vending machine?

The vending machine's purpose is to increase access to no-cost health and wellness supplies and provide our community with harm reduction services.

Are the vending machines monitored or under surveillance?

No. The vending machines are intended to be anonymous. Crawford County Health Department will only check machines to restock supplies as needed.

How can people access supplies in the vending machine?

Similar to a snack vending machines, each machine has a keypad people can enter the corresponding code, and the item will drop down. These vending machines are free and do not require payment.

Will the vending machine encourage drug use?

Research shows that access to naloxone (NARCAN) can reduce opioid overdose deaths. There is no evidence that access to these supplies increases drug use or risky behaviors.
